Cornell Cooperative Extension along with the Lake Champlain Basin Program will be holding a series of on-farm meetings this summer to focus on cover crops, no-till planting, precision agriculture & other lake friendly farming practices.

**“Farming in the Basin”**

**Wednesday, June 26th**

**7:00 PM**

Precision Dairy Farming - Managing for efficiency, optimum performance and nutrient impact

**Adirondack Farms**

**193 Brown Road, Peru**

- Farm owner Jon Rulfs will talk about how Adirondack Farms’ feed bunk management, manure management and crop rotations are managed to maximize efficiency and limit environmental impact.
- Kim Morrill, Regional Dairy Specialist will explain how nutrition can be fine-tuned to reduce environmental impacts.
- Myra Lawyer, Agronomist from the LCBP will talk about how the Basin program hopes to assist farmers make informed decisions about environmental measures to reduce nutrient, toxin and pathogen runoff to Lake Champlain.

Park the equipment and come on over...registration is appreciated but not required. There is no charge for this meeting. To register or get directions, please contact Peter Hagar at (518)561-7450 or Kim Morrill (518) 564-0498 for more details.

Cornell Cooperative Extension of Clinton County provides equal program and employment opportunities.
