Introduction

This resource is your guide for making good food choices that are healthy, tasty, quick, and safe to promote resiliency during hardship or natural disasters. This guide provides 21 meals and 5 snacks to feed a family of 4 for 7 days. Most of the ingredients in this recipe book are based on canned, boxed, or bottled non-perishable food items, except some fresh fruits and vegetables. Fruits and vegetables can be kept without refrigeration for a couple of days or non-perishable fruits and vegetables can be used. The recipes can be prepared using manual appliances.

This resource can be modified and customized to fit your family's needs. Adapt the quantity of recipes and only select recipes that your family will choose to eat.

Food Supply

Stock your pantry with canned, boxed, or bottled foods, dry mixes, and other staples that do not require refrigeration. Choose food items that you and your family will eat and enjoy. Avoid items that require special preparation, long cooking times, lots of ingredients, or large amounts of water. Periodically check expiration dates of food and rotate items in your pantry.

Shopping for your family during financial hardships can be overwhelming if you try to do it all at once. Take it one step at a time. Make one night a week a family preparedness night and try out one of the recipes in this cookbook to find what your family likes.
