

Virtual Youth and Family Conversations and Connections

Offering Opportunities for Young People and Parents to Come Together During the Covid-19 Pandemic

We are excited to create a virtual learning space for our youth in 4-H, REACH 21st Century Programs and we have even included a time for families and parents to come together. You do not need to be enrolled in our current 4-H program to participate. The virtual sessions that we are offering will take place on the same date and time throughout the entire month of April, and you do not need to attend each session.

Click on the following programming options to explore further

- ◆ April 6, Mindful Monday Adventures, 2pm - 2:30pm
- ◆ April 7, Cloverbuds Create, 2pm - 2:30pm and Explore STEM with Mad Scientist Activities, 3pm - 4pm
