Make your water more exciting by adding just a hint of flavor.

Fruits, vegetables, herbs and spices add or “infuse” flavor and nutrients into your water, turning it into a healthy hydrating taste sensation.

- Cucumber slices
- Lemon or lime wedges
- Sliced ginger
- Pineapple
- Mint leaves
- Fresh sage
- Raspberries
- Sliced orange
- Vanilla
- Watermelon
- Your favorite fruit, vegetable, herb or spice

Use one item or any combination that you like. Simply mix your ingredients with water in a bottle or pitcher and place it in the refrigerator for at least one hour so that the flavors can infuse.

Enjoy your cold homemade refreshing beverage!
