ezyVet – Resulting Point of Care (POC) Tests

1. Add the result by clicking on the Keyboard on the request itself under the "Diagnostic Request" area

+Diagnostic I	Request(2) <u>Ex</u>	port						
Lab Reference	Supplier	Diagnostic		Requesting Vet	Date/Time	Status		Actions
US10772- DR457254	CPS-POC	Diagnostic	*	Brian G. Collins	06-19- 2018 4:35:02pm		8	A = / 8
US10772- DR457231	CPS-AHDC	Bile Acids, Fasting Panel (BAF)		Brian G. Collins	06-18- 2018 9:17:58am		8	🛆 📼 🖌 😣
test history Page: 1 ▼ of 1	5 V Items/Page						1	- 2 of 2

- 2. Depending on which POC test you request, you will need to choose 1 of these 3 options to enter the results:
 - i. Use the pre-defined template included (ie. QATS or MultiStix)
 - ii. Choose a template (ie, Snap Tests, Cytology)
 - iii. Free type the findings in the results field
- 3. Once you have entered all of your results into this area, click "Add" to add it to the following locations in EzyVet:
 - i. The patient's medical record Diagnostic Results area
 - ii. Dashboard Diagnostic Results

This example shows the pre-defined template for the QATS and the Outcome Template for the 4DX.
