Participate in the 2017 Seed to Salad Project

Seed to Salad is an adaptable project that genuinely engages young people in growing salad gardens of their own. The project emphasizes:

- A high level of youth decision-making.
- A multidisciplinary approach.
- A range of activities that lets adult leaders adapt Seed to Salad to meet their goals.

Participating groups will receive:

- A Seed to Salad packet that includes a project timeline, budget, tips for site selection and planting along with a variety of interdisciplinary activities.
- Seeds to plant, grow and harvest with your youth group.
- Support and guidance throughout the project.
- In addition to the project support, guidance and supplies, you will be a part of a NYS wide project that engages hundreds of others!

Want to Participate?
Contact Fiona Doherty, fcd9@cornell.edu, for enrollment information. Please enroll by February 1. Visit our website for more information: http://gardening.cals.cornell.edu/lessons/curricula/seed-to-salad/
