Helpful tip on working with Multi-Column content blocks.

It can be difficult to get a multi-column block to become active wen using the mouse. This is a quick tip that will make it easier to access.

Select the image in a multicolumn box (A) and then select the word "Multicolumn" in the bread crumbs (B).

DUPLICATE   DELETE   Defaults   Content

: for a small square image + text.

vel pulvinar velit, non facilisis lectus.

scipit tellus. Etiam ut nisl nisl. Ut

el porta porttitor, justo mi vulputate

nentum leo lectus vel turpis.

em ultrices, lacinia lectus in,

s. Nulla suscipit orci sit amet leo

tent block.

sl.

, pharetra lacus.

ttis.

ectus vestibulum sed.

NLY

se this block for an image + text split

to two even columns. Pellentesque

l pulvinar velit, non facilisis lectus.

sit amet suscipit tellus. Etiam ut nisl

sl. Ut ornare, orci vel porta porttitor,

sto mi purus, eu fermentum leo

ctus vel turpis.
