| Constant | 7.463*** |
|  | (0.155) |
| Observations | 1,250 |
| Number of states | 50 |
| R-squared | 0.914 |

Note: Dependent variable is per capita grants received by each state from 1984 to 2008. Least squares models with state and year fixed effects. Standard errors clustered on state in parentheses. All significance tests are two-tailed.
