Bruce V. Lewenstein

Last update: 20 January 2020

[Note: Bibliographic formats vary because of compilation over many years]

Books

Sally Gregory Kohlstedt, Michael Sokal, and **Bruce V. Lewenstein**, *The Establishment of American Science: 150 Years of the American Association for the Advancement of Science* (New Brunswick, N.J.: Rutgers University Press, 1999).

Edited books

Bruce V. Lewenstein, ed., *When Science Meets the Public* (Washington, D.C.: American Association for Advancement of Science, 1992). Translated and reprinted in Korean, Seoul: Kungree Press, 2003.

Dave Chittenden, Graham Farmelo, and **Bruce V. Lewenstein**, eds., *Creating Connections: Museums and The Public Understanding of Current Research* (Walnut Creek, Calif.: Altamira Press, 2004).

Bell, P., **Lewenstein, B. V.**, Shouse, A., & Feder, M. (Eds.). (2009). *Learning Science in Informal Environments: People, Places, and Pursuits*. Washington, DC: National Academies Press.

National Academies of Sciences, Engineering, and Medicine. 2016. *Effective Chemistry Communication in Informal Environments*. Committee on Communicating Chemistry in Informal Settings. Washington, DC: The National Academies Press. [member of authoring committee]

Pandya, Rajul, & Dibner, Kenne Ann (Eds.). (2018). *Learning through Citizen Science: Enhancing Opportunities by Design*. Washington, DC: National Academies Press. [member of authoring committee]

- Bruce V. Lewenstein, Cornell Cold Fusion Archive, Cornell University Library, Division of Rare and Manuscript Collections, collection no. 4451. Documents emerging area of controversial science, preserving ephemeral material for use by historian and sociologists. As of 1997, had been used in person by about 20 researchers from the United States, Great Britain, Germany, the Netherlands, and Canada, with additional inquiries coming from around the world. (Original deposit: 1990).
- Bruce V. Lewenstein, Science Writers Archives, Cornell University Library, Division of Rare and Manuscript Collections, collection no. 4448. Includes papers of National Association of Science Writers, Council for the Advancement of Science Writing, and several founders of those organizations. Developed and implemented plan for bringing collection to Cornell, 1987-1990. As of 1997, had been used by about a half-dozen researchers, including one from China. (Original deposit: 1990).
