

June 2017 Cornell Lambs for Sale

14 twin and triplet lambs from our June 2017 lamb crop are for sale. They are sired by one of two purebred Finnsheep rams (Finn x Dorset lambs), our Ehrhardt composite ram, or our KBark purebred ½ British Dorset ram (Dorset). Any of them would be great for breeding. Our flock is footrot, soremouth, and OPP free with no observed cases of caseous lymphadenitis observed in the past year and no cases of Johne's Disease observed in about 10 years.

The price at our campus Teaching Barn is \$200 each. Any that are unsold by Tuesday 12 September will sell on Wednesday 13 September at the Empire Dryden Livestock sale barn.
