- Canada ULC S-109, small & large flame tests
- British BS 5867: Part 2:1980

**CSFM Approval No.: F-521.01**

Made with non-combustible elements, this IFR fabric is inherently and permanently flame resistant for the life of the fabric, without the addition of flame retardant chemicals. This flame resistance will **NOT** wash out. RoseBrand, however, recommends annual testing of the fabric using the NFPA 705 Field Test method for Textiles, as accumulations of airborne dust and oils may diminish the flame resistance of the fabric.
