

Sample Text

by Grit Matthias
August 27th 2008

Written texts are also an important part of the dossier to demonstrate written competencies.

They can be any kind of written work, discussing any topic. It could be a poem, a story, a screenplay, a biography, a letter, a dialogue, an essay, a CV, an entry from a diary, a travelogue, a report, a research paper, and so on...

It can be work, one has produced during a language class, but it can also be written pieces produced outside a language class.

Such a sample text should either be attached to the e-Portfolio as pdf file, or in a Blog entry itself. If the dossier text is published as a Blog post/entry, the reflection about this piece should be visibly distinguishable from the dossier text itself.
