

# VIRUSES

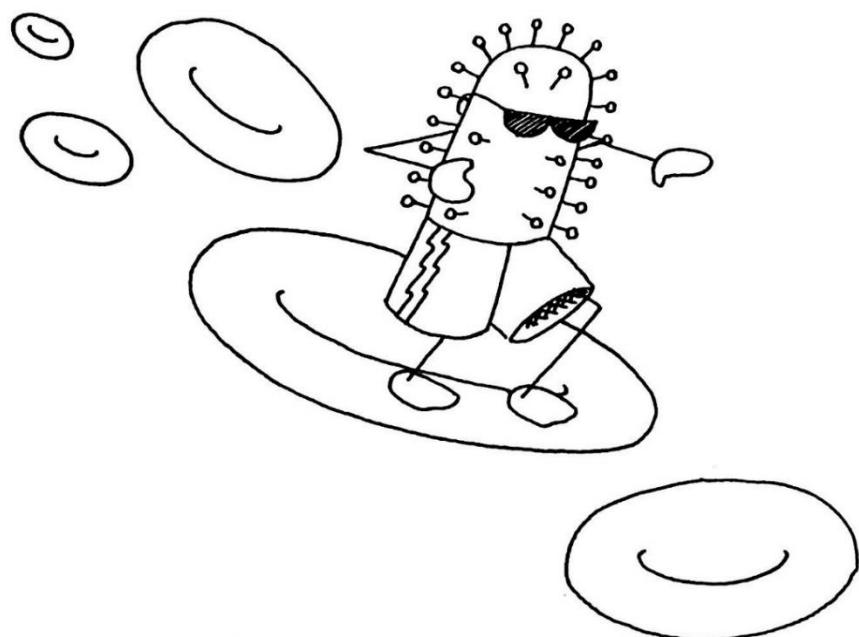

by Magdalen Lindeberg  
*(not a virologist)*

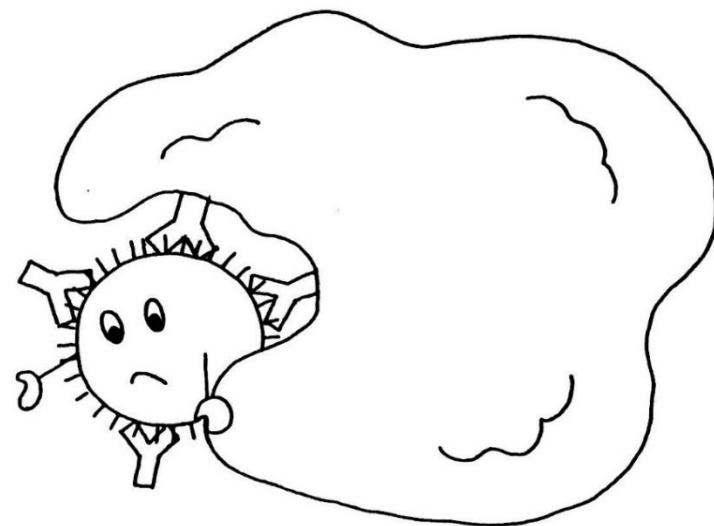

as inspired by Boynton's *Dinosaurs*

Viruses **HAPPY**

and viruses **SAD**

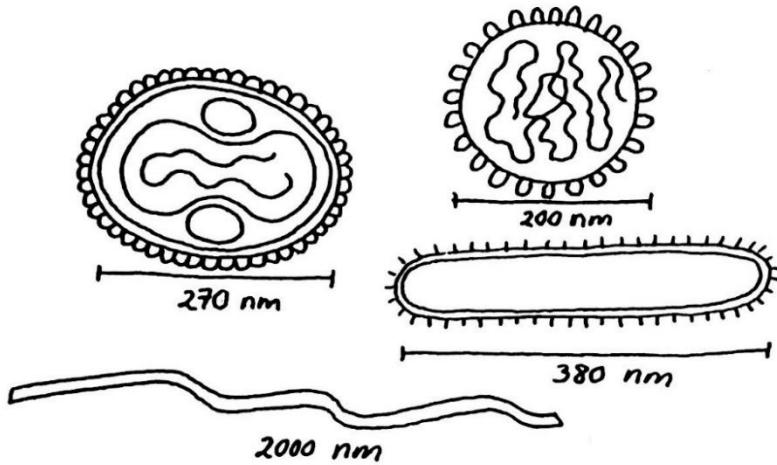

Viruses good

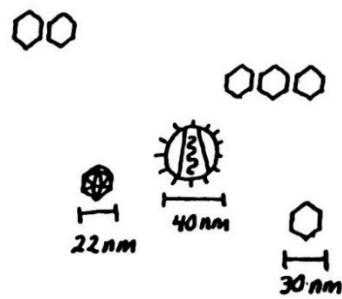

and viruses bad

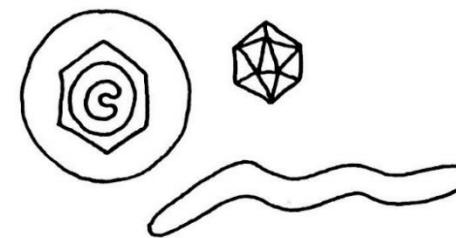

Viruses **BIG**

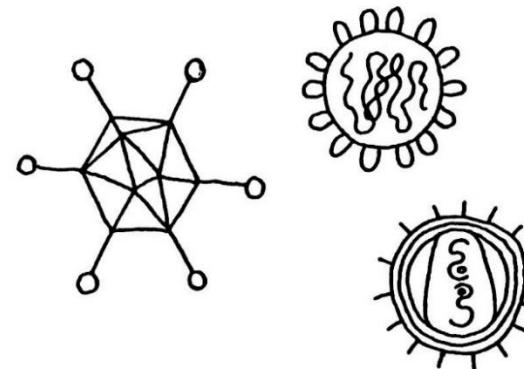

and viruses tiny

Viruses smooth

and viruses spiny

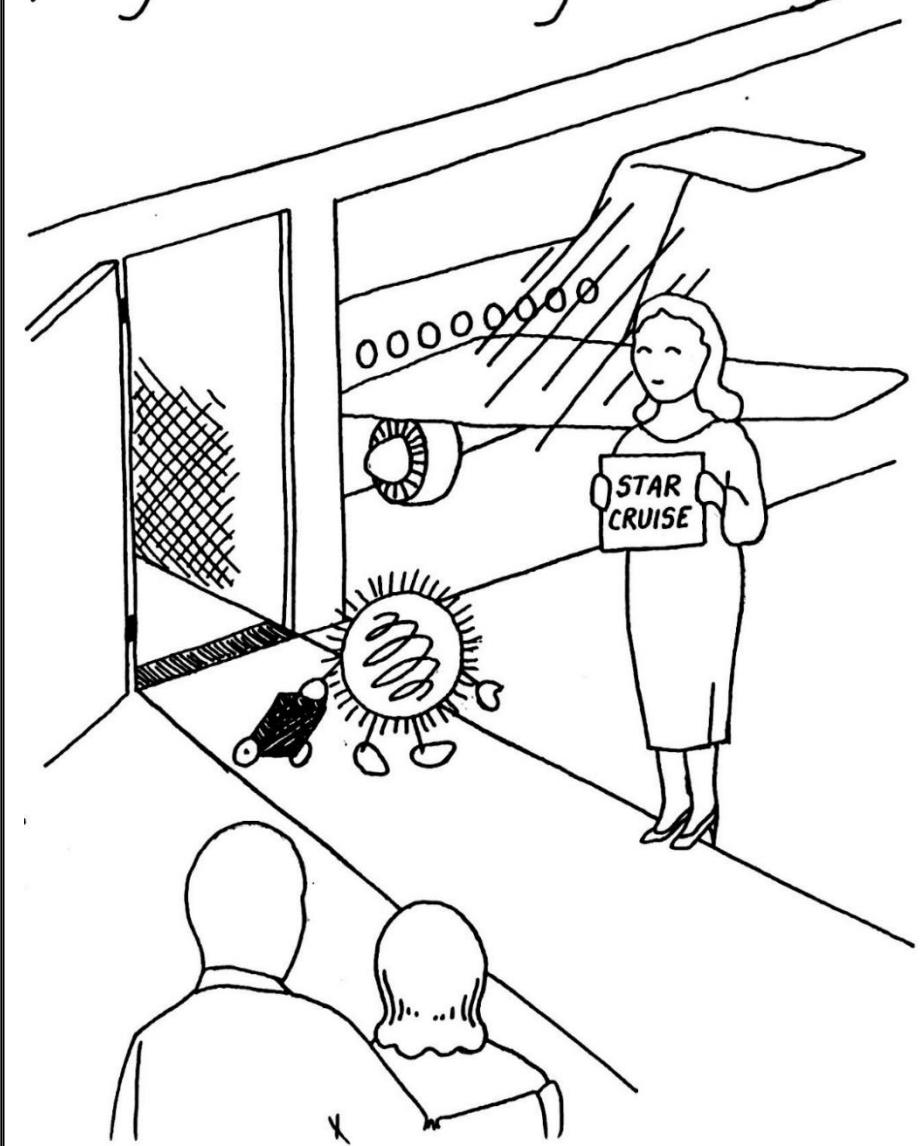

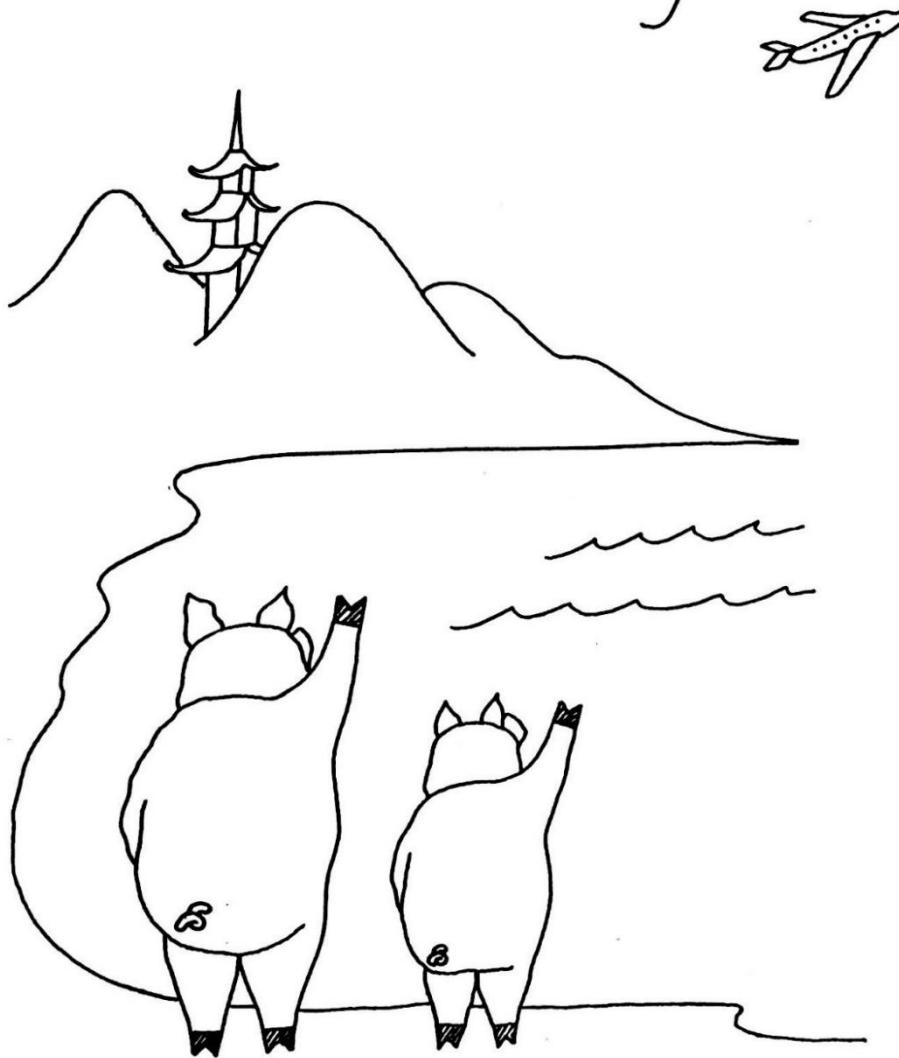

Viruses weak

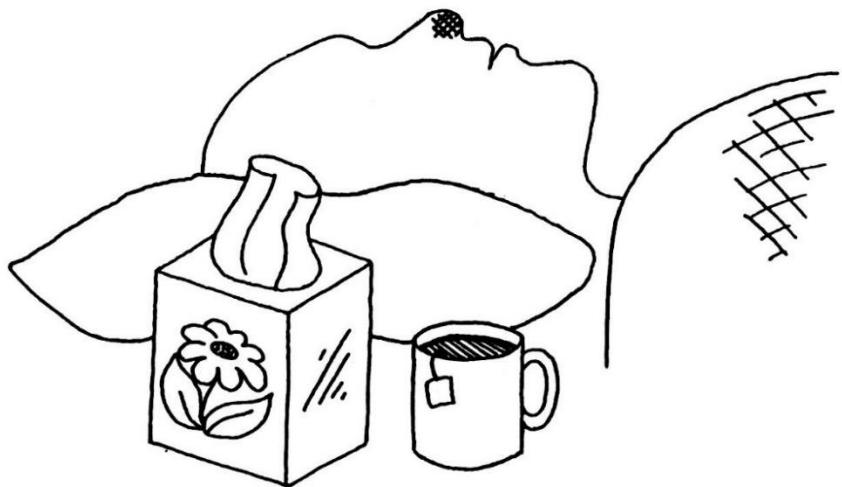

and viruses STRONG

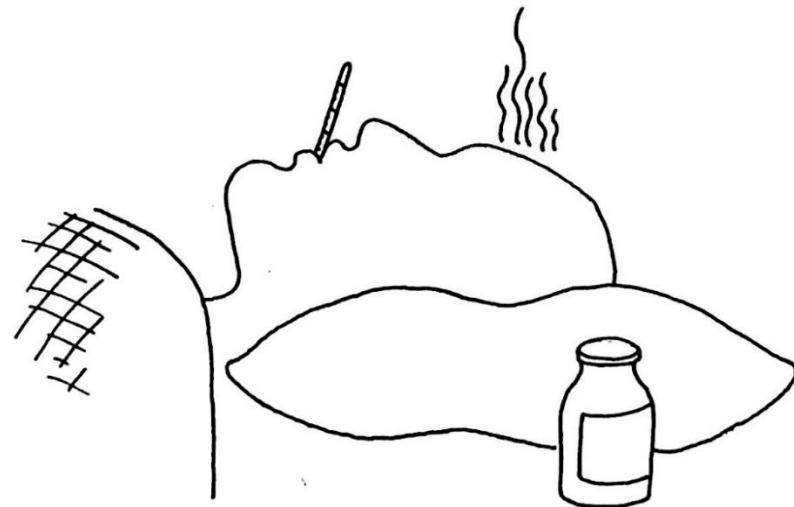

Viruses sent by some pigs in Hong Kong

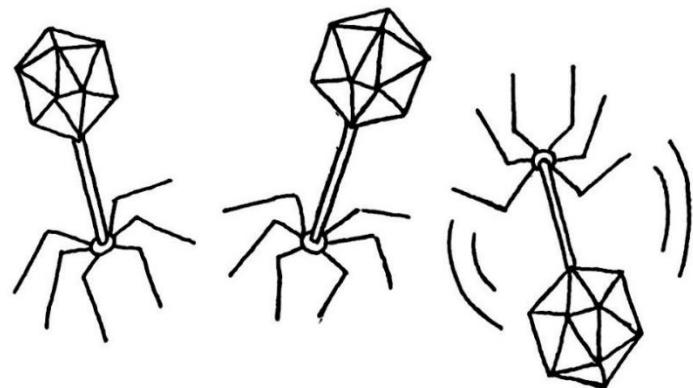

Viruses cold

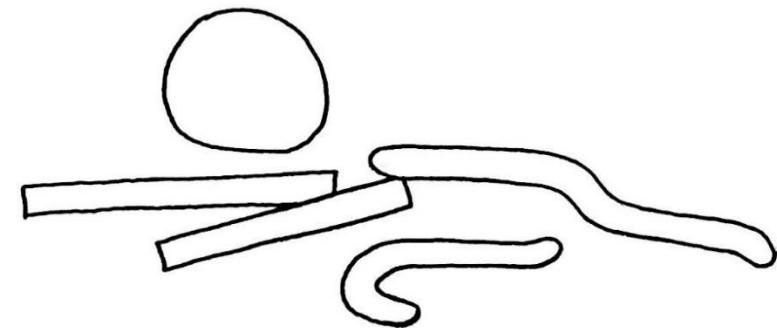

and viruses hot

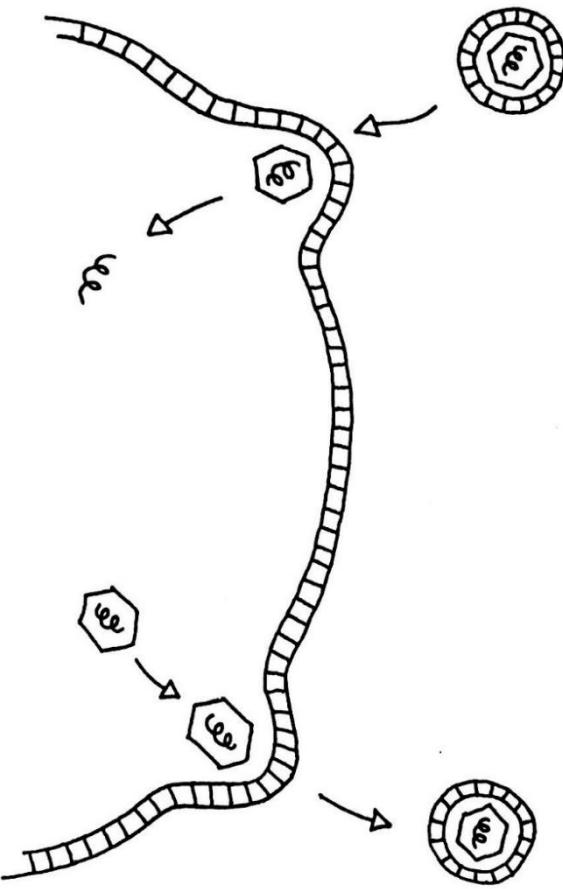

*Viruses cute*

*and viruses not*

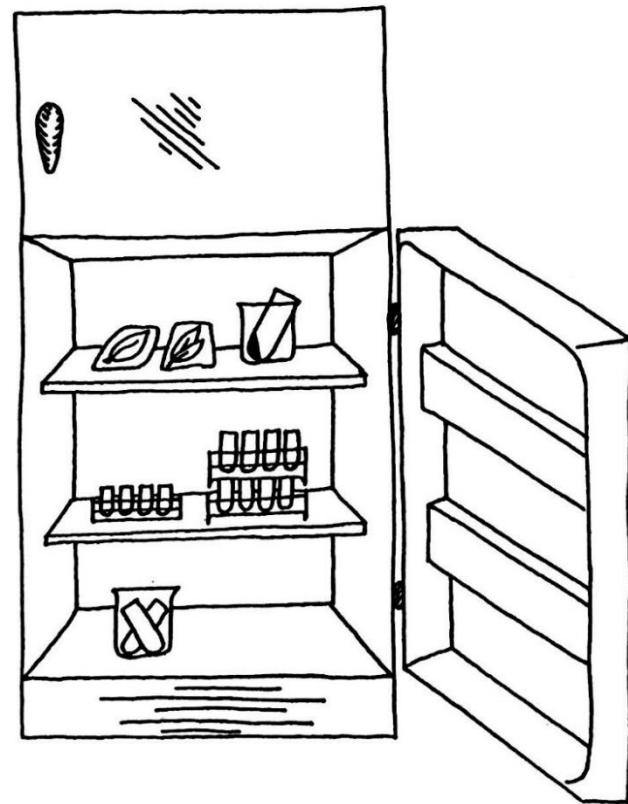

Viruses early

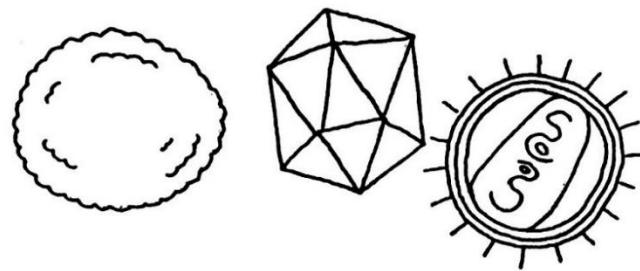

and viruses later

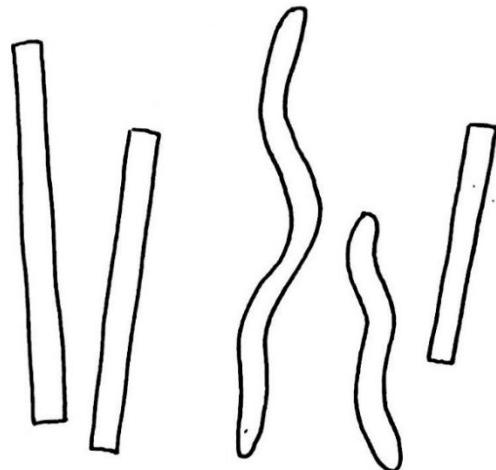

Viruses stored in  
the refrigerator

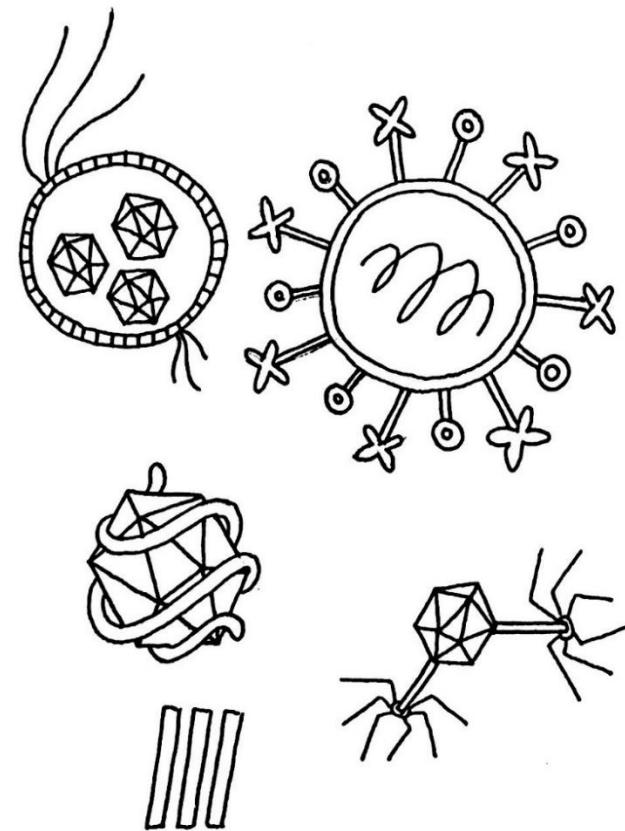

Viruses PLUMP

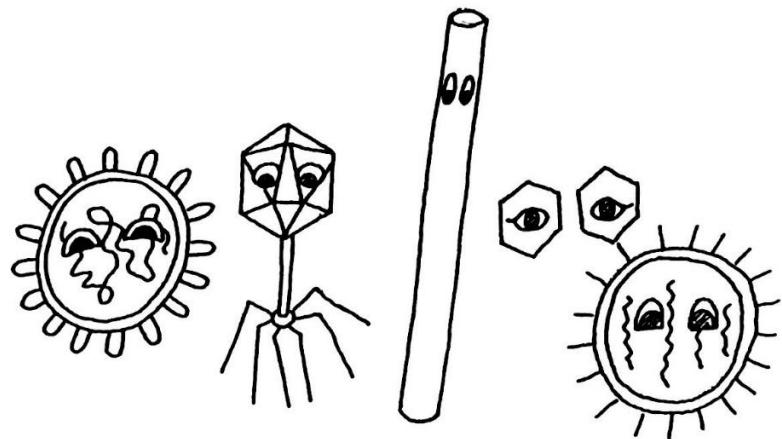

and virus LEAN

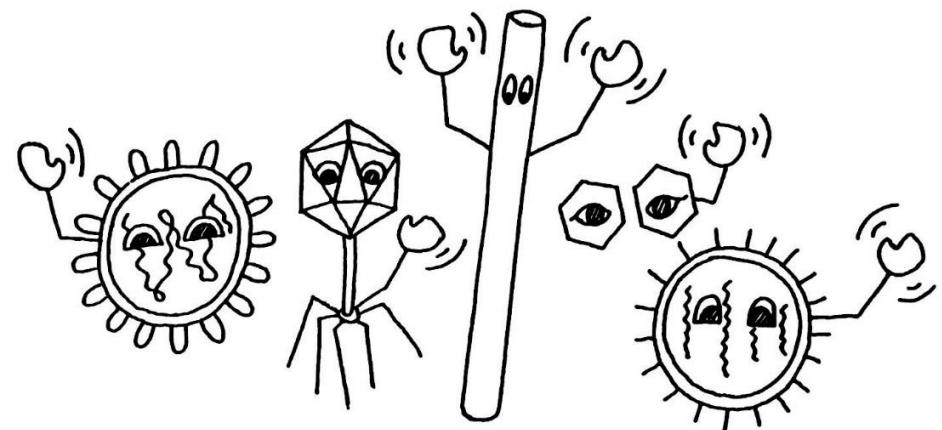

Viruses unlike  
ONES EVER SEEN

Viruses looking right  
at you

to say goodbye  
because we're through

and hoping you don't  
get the flu....
